The goal of the **YOUNG EXPLORERS** program is to provide an environment for children that fosters a continuum of learning through the summer. The program does this by engaging children in hands-on-learning activities that are **educational** and **fun**. Learning will take place through outdoor exploration, arts and crafts, movement activities, physical exercise, cooking and other enrichment activities. Children will be provided with the opportunity to enjoy a summer with peers within their community. Some activities that will be provided are weekly visits to local beaches with a certified life guard, field trips to museums and guest speakers.
